FREE AGENT WAIVER CLAIMS

Use the two boxes designated <A> and <B> below to list Free Agents - in order of preference - you are attempting to claim. Do not change the order, or use these 2 boxes for claims that were acquired in a trade. Use the third box and, if necessary, the Utility Boxes for acquired claims. Be sure to fully identify each player by showing his MLB team, position and full name. If you wish to retain a player you are releasing - in the event none of the Free Agents you are attempting to claim are available - list the released player(s) name last. Be sure to indicate your attempt to claim Free Agents by entering the CL designation(s) on the front under "ON Roster". Enter the <A> and/or <B> to the far left of the line at the position where your claim is to be slotted. Show acquired claims by team # and type (eg 1-A). Do not enter the names of Free Agents in your lineup.
